

Notes 1-3

Int 1

Adding Integers

Unit 1

Review: Write each as an algebraic expression.

- 1. Loss of 10 yards -10
- 2. a deposit of \$900 $+900$
- 3. 78 feet below sea level -78

Name the coordinates for each point and it's quadrant.

4. A $(-1, 2)$
II

5. B $(3, -1)$
IV

Find each absolute value.

$$6. \underbrace{|12 - 8|}_{4} + \underbrace{|6 + 3|}_{9} = 13$$

$$7. \underbrace{|-20|}_{20} - \underbrace{|9|}_{9} = 11$$

Adding Integers

Number Lines: Use a number-line to show how to solve the following problems:

A) $3 + 5 = 8$

B) $5 - 3 = 2$

C) $-3 + 5 = 2$

D) $3 + (-5) = -2$

E) $-3 + (-5) = -8$

What Did You Notice? _____

Chip Boards (Neutralization):

F) $4 + 2 = 6$

| | |
|---|---|
| + | + |
| + | + |
| + | |
| + | |

G) $-4 + 2 = -2$

| | |
|--------------|--------------|
| - | + |
| - | + |
| - | |
| - | |

H) $4 + (-2) = 2$

| | |
|--------------|--------------|
| + | - |
| + | - |
| + | |
| + | |

More Chip Boards (Neutralization):

I) $-4 + -2 = -6$

J) $-7 + 4 = -3$

K) $-1 + 6 = 5$

What did you notice?

Battle or Recruit

For the following equations, circle if the numbers will “battle” or “recruit” and then evaluate.

L) Battle or Recruit

$8 + 20 = 28$

M) Battle or Recruit

$-8 + 20 = +12$

Handwritten work: 20, -8, 12 with an arrow pointing from 20 to 12.

N) Battle or Recruit

$-14 + (-7) = -21$

What did you notice? _____

Practice: $\begin{matrix} 185 \\ -19 \\ \hline \end{matrix}$

P) $25 + (-19) = +6$

Q) $-30 + -16 = -46$

R) $\begin{matrix} 45 \\ -10 \\ \hline \end{matrix} -45 + 10 = -35$

S) $-25 + 19 = -6$
